The District's obligations herein are subject to judicial, legislative and regulatory restrictions beyond the District's control. The Owner releases the District from any and all direct or indirect liability or damages related to actions beyond the District's control and agree to indemnify and hold the District harmless from any such action undertaken by any third party or agency base in whole or in part on the system improvements or service provided for herein.

*Please attach site plan or drawing and description of all planned water use and allow 4-6 weeks for review and analysis as certificates can only be authorized at monthly Commissioner meetings.

Date: _____

Property Owner Signature

**New meter connections require completion of new service application along with a \$13,000 fee plus cost of meter/vault installation and mainline extension (if applicable) before parcel can be connected to the system. Review the LWWD Administrative and Operating Directives under rules and regulations on our website at www.lakewenatcheewaterdistrict.org*
